Wolf® TP-300 Led Torch Module

- The LED Torch Module TP-300 is designed to fit into existing TS/TR-24 and TS/TR-24+ safety torches.
- It replaces the old bulb, improving the light output from 17 lumens to around 130 lumens.
- The battery life increases from 10 hours to 20 hours.
- Installation is simple and quick, with no need for future bulb changes.
- It provides a much brighter light for enhanced visibility and safety
