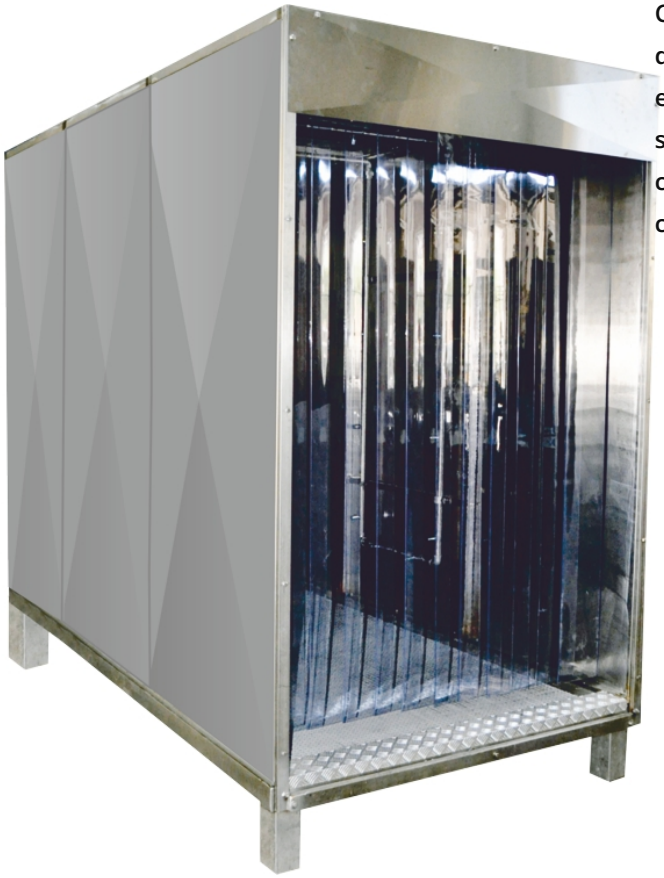
CBRNe Fixed Decontamination System - CBRNe Solutions ISTEC Type DECO

Article Number: 15058000



Chemical, biological, radiological, and nuclear (CBRN) decontamination is the removal of CBRN material from equipments or humans. Decontamination Systems provide sanitation and decontamination to the people who exposed to chemical or biological agents, as well as to extinguish burning clothes.

Standards

Ex-Proof (ATEX)

EAC/GOST-R

TECHNICAL DETAILS

IST Safety is a global leader in the supply of CBRNE decontamination solutions. Our CBRN decontamination and detoxification systems are a fast and handy response to risks, threats in emergency situations for CBRN risk management.

24 spray nozzles sprays the water to whole body.

2 pcs trigger injection brush are available.

Swivelling spray provides easy decontamination.

Stainless Steel or Galvanized and Painted steel material options.

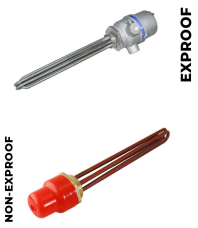
Options for hazardous and non-hazardous areas.

OPTIONS

- Ex-proof or Non Ex-proof Audible And Visual Alarm
- Ex-proof or Non Ex-proof Lighting
- 316 Stainless Steel Material
- Water Pressure Regulator
- Flanged inlet
- Water tank
- Trailer or Skid mounted decontamination systems

OPTIONAL ACCESSORIES

Flow Switch



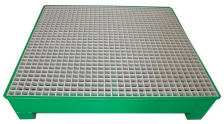
Immersion Heater

The Low Water Level Switch

Electrical Connection Box

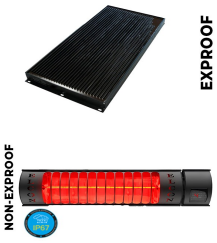
The Flanged Water Inlet

Visual Alarm for Shower



The GRP Grate and Water Collection Basin

Internal and External Lighting



The Cabin Heater

The Water Pressure Gauge

The GRP Platform Activation

The Hot & Cold Water Mixing Valve

The Water Chiller Unit

The Water Level Indicator

The Water Temperature Indicator

The Foot Pedal Controller

Insulated Panels and Spring-Loaded Doors

Wastewater Pump

The E-GSM Warning Device

The Wastewater Tank

The Check Valve

The Hydrofor

The Trigger Valve

The Proximity & Motion Sensor

Pressure Regulator

The Dirt Catcher Filter
