DIAMOND 5 Industrial Purposes, Heat Resistant And Electrically Insulated Protective Helmet

The product is in compliance with (EU) 2016/425 Personal Protective Equipment (PPE) Regulation and is classified as a CAT III product.

The product is certified according to EN 397 "Industrial Safety Helmets" standard and EN 50365 "Working Under Voltage - Electrically Insulated Headgear for Use in Low and Medium Voltage Installations" standards, and it has CE certificate.

The product has Class 0 performance according to EN 50365 "Working Under Voltage - Electrically Insulated Headgear for Use in Low and Medium Voltage Installations" standard.

The product has Low Temperature Resistance : -30°C and High Temperature Resistance : +50°C

TECHNICAL DETAILS

The product's specifications are;

SPECIFICATION	CONTENT
Shell material	ABS
Textile harness	PA (Poliamid)
Textile headpiece material	Polyethylene
Sizes	53-63 cm (Adjustable)
Weight	404 grams

Product Areas of Use: Heat, Electricity, and Shock Protection

Product Sectors: Public Works, Construction, Secondary Work / Craftsmen, Light Industry, Maintenance, Chemical Industry, Oil and Gas (Extraction), Petrochemical, Waste and Water Treatment, Energy, Storage

Color Options: White, Blue, Grey-Yellow, Yellow, Black, Red, Green
