

EUREKA 13-4 Puncture Hydraulic - Hydraulic Oil Jet Resistant Glove

The Eureka Safety 13-4 Puncture Hydraulic glove provides high protection against hydraulic oil jets, tested against 0.3 mm needle punctures. With a high cut resistance (A5) and nitrile coating, it offers excellent grip in wet and oily environments.

Product Features:

- **EN 388:** 4X44E
- **ANSI Cut Resistance:** A5
- **Coating:** Nitrile

Applications:

- Oily and wet environments
- High cut and hydraulic oil risk areas

CE Mark

Category II
