

Ex-Proof Atex Towerlite Lighting System WTL-575/230

The WTL ATEX Towerlite™ is a strong, sturdy, and robust fully ATEX, IECEx and UKEX Zone 1,2/21,22 certified transportable tower light solution. Extendable to a height of up to 5.4 metres, it's fitted with three powerful and adjustable LED LFX2 Floodlites and delivers up to 78,000 lumens of intense bright light for overhead indoor or outdoor illumination of medium to large sized areas.

Teknik Bilgiler

FEATURES AND BENEFITS

- A fully certified Gas Zone 1 and 2 and Dust Zone 21 and 22 ATEX, IECEx and UKEX
 Hazardous Area lighting solution
- The powerful overhead area illumination, provides:
- A large, wide spread of bright, uniform lighting, giving a consistent and even distribution of light, reducing shadows and glare
- Improved safety: helping to reduce accidents by ensuring better visibility and minimising dark areas

- Enhanced productivity: clear vision enables work tasks to be carried out efficiently and effectively
- Extendable to a height of 5.4m for excellent high level illumination
- Up to 78,000 lumens of high quality, ultra bright light from 3 x LFX2 Floodlites
- IP66 ideal for both indoor or outdoor use
- Fully adjustable with individual Floodlite[™] rotation and tilt
- Supplied with HO7RN-F cable for the input to and outputs from the Towerlite™
- Supplied with a fitted ATX, CEAG, Marechal or Stahl Ex plug
- Available in 110V or 230V versions
- Easy to manoeuvre and set up in minutes by a single operator
- Approximate weight 320kgs
- Integral fork truck pockets for easy on-site transportation
- Suitable for use in winds of up to 40mph/64kph
- Options available with a socket for inter-connecting towers

High-Performance

The WTL ATEX Towerlite™ features 3 X Wolf LFX2 Floodlites giving a light output of up to 78,000 lumens. The tower can be orientated, the middle light tilted, and the outer lights individually tilted and rotated to direct the light to where it's needed. As such, large Hazardous Areas can be illuminated effectively from overhead even when there isn't other infrastructure available to mount lights to. This allows you to focus on getting the job done instead of how to light the area you are working in.

The diagram represents the output from the WTL ATEX Towerlite™ with 3 x 62° beam angle LFX2 Floodlites, with the tower extended to a height of 5 metres.

- PRODUCT REFERENCE WTL-575/230
- PRODUCT DESCRIPTION

- Fully certified ATEX, IECEx and UKEX Zone 1,2/21,22 tower lighting solution
- CODE II 2 G Ex eb mb IIC T4 Gb \ II 2 D Ex tb IIIC T110°C Db
- CERTIFICATION
- ExVeritas 19 ATEX 0586X / IECEx EXV 19.0079X / ExVeritas 21 UKEX 0939X
- INPUT POWER 3 x 180W
- VOLTAGE OPTIONS 180 277V AC 50 60 Hz
- POWER FACTOR >0.90
- LIGHT OUTPUT 78,000 lumens
- LIGHT SOURCE 3 X Wolf LFX2 Floodlites (32 LEDs per light); beam angle 62°
- PLUG OPTIONS ATX, CEAG, Marechal, Stahl
- DIMENSIONS Mast height 5.4m when fully extended
- WEIGHT Approximately 320kg (including lights)
- AMBIENT -20°C to +49°C
- COLOUR TEMPERATURE 5000K
