

FYRPRO® NXT-C (COVERALL)

Product Code: 13152869

The Pinnacle of Safety and Comfort

Leading the new X-Series, the FYRPRO® NXT Firefighter Coverall is designed to provide maximum protection and comfort during firefighting operations. Equipped with innovative textile technologies, this coverall offers firefighters top-level safety, performance, and freedom of movement.

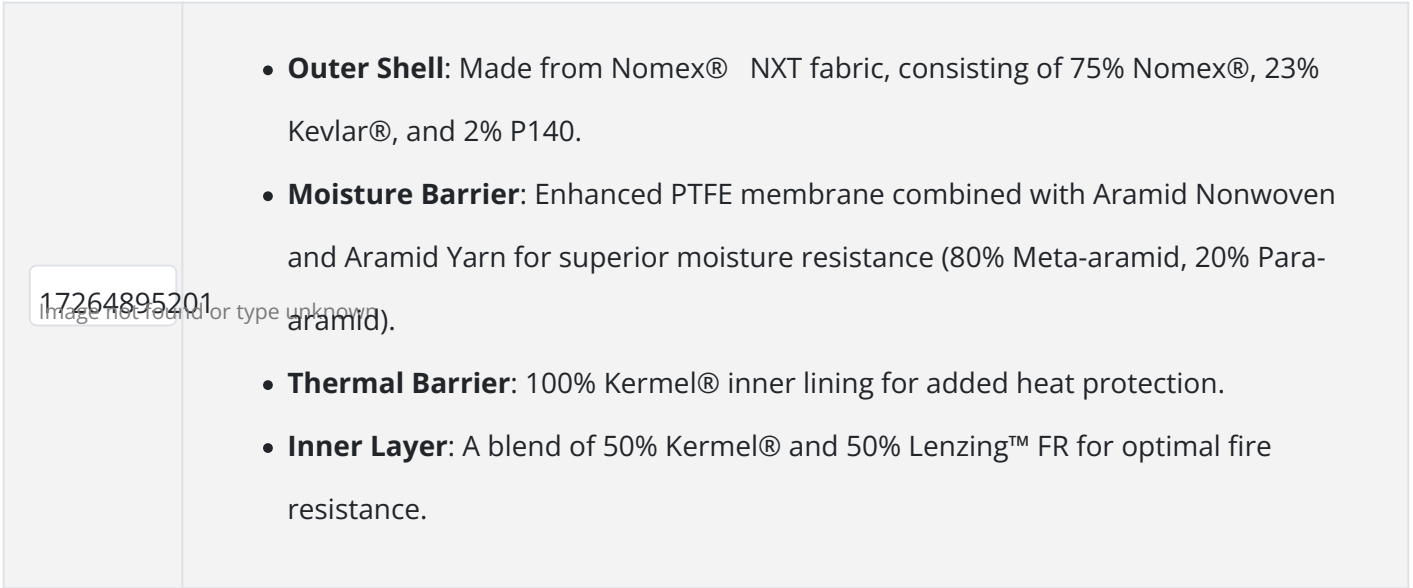

Certified Safety

FYRPRO® NXT coveralls are CE marked and certified in compliance with the (EU) 2016/425 Personal Protective Equipment (PPE) Directive. These coveralls are manufactured to meet EN 469:2020 standards, and fully comply with EN 1149-5:2018 electrostatic properties and EN ISO 13688:2013 general requirements. Additionally, all materials are OEKO-TEX certified, ensuring they are free of harmful substances and environmentally friendly.

Superior Design and Functionality

Designed as a single-piece garment, the FYRPRO® NXT coverall is specially developed for firefighter safety. Its lightweight and ergonomic design offers maximum mobility and comfort, allowing users to perform at their best.

Layer System

- **Layer Structure:** 4-layer protection, certified to the latest EN 469:2020 European standard.
- **Customizable Design:** Available in four color options—Navy, Gold, Orange, and Red. Two-tone designs are also offered.
- **Reflective Features:** Flame-resistant reflective stripes by YSL or 3M™ Scotchlite™, backed by aramid support, 50 mm wide.
- **Zipper System:** Durable FR brass zipper with panic flap and extra neck protection.
- **Antistatic and Durable Outer Layer:** High abrasion and puncture resistance, with water- and oil-repellent properties.
- **Mobility:** Enhanced ergonomic design with extra underarm gussets and flexible knee construction.
- **Elastic Waist:** Stretchable waist for a perfect fit and ease of movement.

Extra Safety and Comfort

FYRPRO® NXT helps maintain optimal body temperature during prolonged use, reducing heat stress for firefighters. Its lightweight and flexible design allows for comfortable movement even in intense work environments.

Innovative Layers

Revolutionary Outer Layer: Nomex® NXT

The Nomex® NXT outer shell is the next evolution of Nomex® Outershell Tough fabric, providing 300% greater tear resistance. Even after repeated washing, the fabric retains its vibrant look and offers unparalleled protection and comfort in hazardous conditions.

- **Durability:** Delivers superior performance in extreme environments.
- **Compliance:** Maintains EN 469 and EN 1149 standards even after 40 wash cycles.

High-Performance Moisture Barrier

The PTFE membrane + Nonwoven Moisture Barrier provides comprehensive protection against heat, flames, and steam. Reinforced with Aramid yarn, it prevents moisture buildup while keeping hazardous liquids and chemicals at bay.

- **Liquid Resistance:** Protects against dangerous substances like blood, chemicals, and water.
- **Biological Protection:** Ensures safety against potential infection risks.

Chemical and Liquid Protection

The PTFE Membrane + Nonwoven Moisture Barrier offers superior protection not only against heat and flames but also hazardous liquids, ensuring firefighters are safeguarded against both biological and chemical threats.

- **Biological Protection:** Enhances safety in the presence of biological hazards.

Stay Ahead in Every Mission with FYRPRO® NXT

Crafted from high-quality materials with innovative design, the FYRPRO® NXT coverall provides firefighters with the highest levels of safety, durability, and comfort.

- **Inspection Zipper:** Facilitates easy access for internal garment inspection and maintenance.
- **Pre-Bent Design:** Pre-shaped arms and legs provide extra comfort and flexibility during movement.
- **Napoleon Pockets**
- **Drain Holes, Eyelet**
- **Segmented reflective**

By choosing FYRPRO[®] firefighter protective clothings, you get many advantages.

FYRPRO® series fireman suits are guaranteed for 12 months according to the terms and conditions of our company. We trust our product and guarantee that our protective clothings are free from defects in material and workmanship for a period of 1 (one) year.

FYRPRO® series fireman suits have lots of advantages through its favorable construction;

International requirements: specialised equipment according to the international standards

Quality: focusing on the best items in the market

Breathability: protecting moisture barrier from wet without loosing breathability

Reduced heat stress: thermal barrier enhancing protection against heat

Durability: qualified technical fabrics

Comfort: lightweight and flexible during extended wear

Freedom of movement: mobility in dangerous firefighting situations

Firefighting is a tough job. It is essential to focus on important details. FYRPRO® offers you the highest protection with a special design gaining above advantages via using top quality materials. It allows your body breathe and supplies you comfort during extended periods of wear. Not letting the increase of your body temperature during firefighting, lowers your heat stress. This is an extensive experience FYRPRO® provides you.

Lifetime of FYRPRO® Garments

In general, there are no legal restrictions on the duration of use of firefighter suits.

Although it varies according to the way of use, the basic rule (without guarantee) is the use of a garment.

It can be assumed that the average lifespan is 10 years.

This life is calculated based on various levels of use recorded by fire brigades.

In addition, after 10 years, there will be an opportunity to buy a garment using the latest technologies in the light of technological developments and care should be taken in this regard.
