

ISTEKSTIL® Active T-Shirt

For cool and dry skin

Teknik Bilgiler

Functional and Thermal Underwears are designed to help the workers work highly productive in cold and hot environments. Shirt absorbs the sweat quickly by fitting the body and keeps the body temperature steady via creating a microclimate on the skin.

The products comprising of synthetic fibers accelerate the sweat moving away from the body.

Moisture is thrown away easily by the channels created by the knitting style of the fabric. It is breathable and light; supplies movement ease with elasticity. When the body cooled, shirt touches dry and keeps you from chilling and feeling cold. It has a soft touch, keeps cool during summer and hot during winter. It does not lose its species after being washed because of that

it does not have a chemical treatment.

Material: %67 Nylon, %37 PES, %3 Elastan

Active shirt removes the sweat from the body quickly by the channels created by the knitting style of the fabric. Sweat reaches outer face of the shirt and stays dry with the water repellent structure. This helps the skin staying dry too.
