JETGUARD Chemical Protective Suits

Jetguard garments provide excellent physical strength and basic chemical resistance, ideal for applications where workers need protection from dry particulates and light splash. Color is yellow.

TECHNICAL DETAILS

Spray-Tight (Type 4) Performance: Features high-performance laminated fabric that effectively blocks the penetration of liquid aerosols and chemical sprays.

Particle & Splash Barrier: Fully meets Type 5 (Hazardous dust and particles) and Type 6 (Limited liquid splashes) standards. Ideal for pharmaceutical manufacturing and asbestos abatement.

Biohazard Protection (EN 14126): Rigorously tested against infective agents, bacteria, and viruses, ensuring a safe barrier for healthcare and laboratory environments.

Breathable & Lightweight Design: Offers a lower weight compared to the "PLUS" version, reducing heat stress and allowing personnel to work efficiently throughout long shifts.

Antistatic Compliance: Fully compliant with EN 1149-5, preventing electrostatic discharge and ensuring safe operation in explosive and flammable (ATEX) zones.
