

PAB Helmet Mounted Lamp

Lamp holder extends the capabilities of your PAB fire fighters helmet when fitting a lamp. Your job is faster and more efficient when you are able to use both hands and by fitting an optional lamp to the helmet the light beam follows your line of vision.

Teknik Bilgiler

Your job is faster and more efficient when you are able to use both hands.

Holding a flashlight when attempting an important task is just not an option especially when fire fighting.

Our simple click in lamp gives you usage option plus is quick to change batteries if needed.

Features

Simple click fit

Lightweight

ATEX approved

Benefits

You simply click it into the holder on your helmet

It is extremely lightweight so does not restrict or reduce your head movement

It is approved for use in hazardous zones so you can use it during rescues as well as fire fighting duties
