

PENKERT BASIC GRIP SHORT Fire Fighting Gloves

The entry-level model made of leather for fire fighters.

Protective glove made of hydrophobicated cow grain leather with a high tactility und wearing comfort.

Teknik Bilgiler

The BASIC GRIP is a fire brigade protection glove with especially high wearing comfort. The palm consists of thermal resistant, hydrophobicated erthem (water resistant) cow grain leather, equipped with an additional palm reinforcement.

The especially softness of the processed cowhide and of the particular glove design guaranteed fatigue-free work and optimal tactility. The glove is equipped with a porelle®-moisture barrier.

palm: heat resistant, hydrophobicated cow grain leather, with additional palm reinforcement
back of the hand: with knuckel protection steam burst prevention by porelle®- membrane as

moisture barrier lining material from KEVLAR® as cut resistance and heat insulation

KEVLAR® knit cuff

karabiner and eyelet for belt fastening
