

## STEAMPRO Protective Clothing against Steam and Hot Fluids

It is designed to cover the entire skin surface.

The glass used in the hood is manufactured according to EN 1486 standard.

It provides protection against hot water vapor at 300- 400 temperature.

The protective clothing is designed to be used with self contained breathing apparatus.

It is suitable to wear only in hazardous areas. It cannot be worn all the time.

## TECHNICAL DETAILS

**Outer Layer:** Gamme Safergrip - Silicone Coated Paraaramid

**Middle Layer:** TBA - Aramid Felt

**Inner Layer: Aramid + Viscose FR Fabric**

Since the protective against hot water vapor is not a European standard yet, there is no standard for the clothing.

## OPTIONAL ACCESSORIES
