SUSTAINABILITY

EVERY RAW MATERIAL AND COMPONENT IN OUR FIRE FIGHTING RANGE IS SOURCED FROM ITALY. THIS MINIMIZES OUR OVERALL CARBON FOOTPRINT BY SOURCING IN-COUNTRY.

RECYCLED PACKAGING

100% RECYCLED MEMBRANE

33% CARBON REDUCTION

TEMPERATURE CONTROL

Our boots use extensive heat reductive materials such as premium flame retardant leather, breathable absorbent membranes and 3.5mm felt insoles specifically designed for fire fighting purposes.

Elasticity of inner lining extensible up to 300%

15 micron thickness for breathability

sweat absorbent & dispersive

Durable for extreme environments
