

Wolf® H-84p Handlamp Led Module

- The H-84P LED module upgrades the Wolflite H-4DCA Handlamp.
- Increases light output by 700% (up to 269 lumens).
- Extends battery life by 225% (up to 45 hours).
- Can be used as a spare for the H-4DCALED Handlamp.
- Ideal for replacing damaged or expired LEDs.
- Up to 269 lumens (at source), 7 times the light output of the H-4DCA.
- Easy to replace the halogen bulb, upgrading to H-4DCALED.
- Up to 45 hours battery life, double that of the H-4DCA.
- Simple maintenance for H-4DCALED to replace damaged LED.
- Typical lifespan of over 25,000 hours
