

13-4 Heat FR-AF

Optimized for high Arc Flash risks

Perfect in tough working conditions with high spark, heat and flame risks

High performance in cut resistance

Main materials: Para aramid, Fibreglass, Chloroprene composite

CE Mark

Category II

TECHNICAL INFORMATION

Optimized for high Arc Flash risks

Perfect in tough working conditions with high spark, heat and flame risks

High performance in cut resistance

Main materials: Para aramid, Fibreglass, Chloroprene composite
