

ELECTPRO® G2L ULTRASOFT 900 High Level Linemen Electric

Product Code: 13513122
Arc Flash Protective Garment (63 ATPV)

Superior Protection for Arc Flash and High-Energy Environments (ATPV 63 cal/cm²)

The ELECTPRO® G2L ULTRASOFT 900 is a specially designed operator suit that provides superior protection against high-energy arc flash incidents, heat, pressure, and molten particles. This three-piece set, consisting of a jacket, trousers, and protective hood, offers comprehensive coverage. Classified as Personal Protective Equipment under (EU) 2016/425, this suit complies with IEC EN 61482-2 and GS ET 29 European standards and is CE certified.
