

ELECTPRO® S1L ALX 145 Shirt

Product Code: 13816910

The ELECTPRO® ARC Protective Shirt (S1L ALX 145) is designed to provide superior protection against electric arc, heat, and flames, with antistatic properties. It protects the upper body from the negative effects of electric arcs, including heat, pressure, and molten particles.

Key Features

Heat and Flame Resistance: Offers effective protection against high temperatures and flames, ensuring your safety.

Electric Arc Protection: Shields your body from the heat, pressure, and molten particles caused by electric arc incidents.

Antistatic Property: Prevents the accumulation of static electricity, creating a safer working environment.

Ergonomic Design: Ensures comfort even during extended use, allowing for freedom of movement with its ergonomic structure.
