

FYRPRO® XTREME PRO Design Fireman Suit (Jacket & Pants)

Product Code: 13152370
PRO Design

Introducing the FYRPRO® XTREME Pro Design: Enhanced Protection, Unmatched Comfort, and Visual Appeal

Building on the robust foundation of the original FYRPRO® XTREME Firefighter Suit, the Pro Design version elevates both safety and style to new heights. This cutting-edge variant not only maintains the highest standards of protection in extreme conditions but also incorporates additional layers of ergonomic design and comfort. With superior craftsmanship that prioritizes wearability, the Pro Design provides professionals with a garment that enhances mobility while minimizing fatigue during prolonged operations.

What sets the Pro Design apart is its seamless blend of visual aesthetics with practical benefits. The refined design adds a modern, polished appearance that reflects the professionalism and confidence of the wearer. This means that firefighters can rely on maximum protective performance without compromising on comfort or style.

Why Choose FYRPRO® XTREME?

CE-Certified and Manufactured to High Standards

FYRPRO® XTREME® firefighter suits are CE-certified under the (EU) 2016/425 PPE directive and have the EC Type Examination Certificate. Additionally, they are manufactured in compliance with EN 469:2020 Level 2 (X2, Y2, Z2), EN 1149-3/5, and EN ISO 13688:2013 standards.

EN 1149-5:2018
