SAFETY LTD

About Us

Since 1979, we produce equipments for;

OCCUPATIONAL HEALTH AND SAFETY
FIRST AID & CIVIL DEFENSE
FIRE & CBRN & PERSONAL PROTECTION.

Our headquarters and factory are located in Ankara. With our network of distributors spread all over the country and worldwide we distribute our best and high quality service to customers in the shortest time. Our company has TS EN ISO 9001 Quality Certificate. All our products are certified according to international standards. With the high quality products we manufacture, our export sales increase day by day.

What We Do

We provide variety of special services you may need.

Engineering Consultation

IST provides complete information on the design, use, supply and care of emergency showers and eye/face wash fountains, safety storage and plunger cans, spill containment systems, decontamination systems and airline breathing systems. For all your needs during a new plant installation or facility renovation, our experienced team will guide you to the best and most economical solution.

Quality and Safe Product Selection

Our product range has a wide range of standard and optional designs. For interior and exterior applications, we offer high quality systems with heating or cooling, with freeze protection, portable or fixed special systems.

Special Engineering Solutions

Each shower is designed for different purposes and cannot substitute each other. In addition, standardized units with heating or cooling, may not always be the right choice for your needs. IST is fully equipped to offer and produce the special designed systems according to your needs.

Adjusting Water Temperature

Tepid water supply (16 - 38 ° C), which is a requirement of both American and European standards, requires special attention. Our expert team has the capability to analyze resources of your facility and offer solutions to ensure that emergency showers and eye / face wash fountains will work properly under all circumstances. Our experts will work in coordination with your design or expert team.

Pre-Sales Solid Modelling and Technical Drawing

We provide customized design and engineering solutions to customers with our advanced three-dimensional solid modelling software. In this way, our customers can more easily analyze the suitability of the product to their facility and can plan the project accordingly. Two or three dimensional detailed technical drawings are available for all our products.

After-Sales Support

Our expert technicians can evaluate your existing emergency shower and eye/face wash fountain systems to ensure compliance with ANSI and EN Standards. Our expert team will assist you about training and product setup for your new emergency shower. All our products are guaranteed against production and workmanship defects for a period of 24 months.

Please contact our sales department for detailed information about our services that are suitable for you.

For such serious equipments, working with an experienced company that values human health and manufactures in accordance with international standards will be the right choice for your facility, your employees and your safety.

INDEX

- 
- A photograph showing a person wearing a white full-body protective suit and gloves, using an emergency shower. The person is leaning over a stainless steel basin with water spraying from a nozzle. The background is dark, suggesting an industrial or laboratory setting.
